Full Stack Developer

I'm a developer passionate about building tools and products that make life easier and more enjoyable. Currently contributing to the open-source community and building projects that solve real-world problems, to create solutions that I'd love to use myself—tools that add value and a touch of fun.

WORK EXPERIENCE

Google Summer of Code
JSON Schema • May 2024 - September 2024

- Led the project to enhance the JSON Schema Tooling View with advanced filtering options and integration with Bowtie for benchmarking.
- Implemented tracking mechanisms to gather insights on user interactions and trends for better navigation.
- Implemented a new data model to make the view more dynamic and data-driven.
